

Expertise you can trust

Broadband in France and Smart CIC are trading names of SARL Alpine Services. Based near Chamonix in the French Alps and on the Cote D'Azur, Smart CIC is an IT consultancy specialised in providing enterprise solutions and support for UK and French businesses and it services for second home owners. Amongst our client base are some of the largest independent tour operators and property management companies in the northern french alps.

Our solutions include:

- Mobile office services
- Enterprise and Personal Voice over IP solutions (VOIP)
- Network Management
- Remote Server and Network Maintenance
- ADSL installation
- IT Support

We have built up an extensive knowledge of the provision of broadband services in France and are able to leverage our technical expertise to ensure that our clients' ADSL and Broadband installations run smoothly by pre-empting potential problems when talking to the technical teams within ISP's and France Telecom.
